Baseline Report for

Indicator C10: Number of co-management organizations realizing improved revenue sharing.

December 2013, CREL, Dhaka.

Co-management is based on the principles of partnership, joint responsibility and accountability, and revenue sharing between the Govt. and the local community. As part of this collaboration, CMOs, communities have been sharing responsibility engaging in protection, conservation, restoration and management of biodiversity of the Protected Areas. To compensate for their support, and to encourage more participation, the Govt. has decided to share revenue earned from PAs as fee for use of ecotourism infrastructures and facilities improvement as well as community development. CMOs can utilize the shared revenue to promote socio-economic well-being of the local stakeholders.

Indicator definition: Sustainable financing for co-management organizations is a significant issue for long-term functioning. In forest PAs there are particular challenges in establishing funding mechanisms, since the land is under the Forest Department and there are restrictions on generation of funds from it. Previous USG assistance projects, e.g. NSP and IPAC facilitated such processes whereby GOB established a mechanism of conservation financing in forest PAs with CMOs with a provision for 50% of entry fees collected to be shaed to CMOs in some forest PAs.

Outline of CREL Interventions:In line with conservation financing for the CMOs, to sustain implementation of CMO plans to enhance resilience of communities and NR bases, CREL will facilitate both policy dimension (for retention of 50% revenue sharing at sources) as well as field implementation (of existing entry fee sharing guideline) in more protected areas of the country. The Project envisages facilitating the GOB agencies (Forest Department, Ministry of Environment and Forests (MoEF) and Ministry of Finance) establishing more efficient revenue sharing arrangements with more CMOs. Sharing revenue eventually will exhibit ownership and commitment of Government agencies towards comanagement for biodiversity conservation and linking this with incentives through community development funds in these areas.

Baseline outlines:By reviewing formal adoption (or absence) and actual practices of revenue sharing, CREL outlined baseline scenarios in each co-managed forest PA, along with gaps and shortcomings in existing systems.CREL aims to promote expansion and improvement of this revenue sharing mechanism in targeted forest PAs between government and the CMOs. This already exists in six PAs, but the systems and promptness of revenue sharing could be improved, and other PAs with significant numbers of visitors have the scope to introduce entry or user fees and establish revenue sharing with CMOs. Existing PAs, practicing revenue sharing (from Govt.) from entry fees are: Lawachara National Park, Satchari National Park, Rema-Kalenga Wildlife Sanctuary, Chunati Wildlife Sanctuary and Teknaf Wildlife Sanctuary since November 2009. However, in case of Chunati WS only Chunati CMC gets the revenue, not Jaldi CMC of the same Sanctuary; similarly, in Teknaf WS, out of three CMCs only Teknaf CMC gets the revenue from Govt.

Process of Entry Fee Collection/Approval:

- CMC will initiate discussion to start Entry fee collection and will apply to CCF through DFO with meeting minutes.
- CCF will issue a circular to this effect and authorize/instruct DFO to initiate fee collection process
- DFO will issue a memo to respective CMO to take initiative for the collection, recording and subsequent deposit of fees into Govt. Treasury
- Three-fold Money Receipt to be treated as entry ticket and is to be stored in the DFO Office.
- DFO is to maintain the records of store of entry tickets. Also, s/he is to submit stock of the entry tickets at the time of new requisition
- CMO Member Secretary (FD Range Officer) shall receive Receipt Books from DFO under requisition, and arrange for collection of fee with these receipts by CMO nominated counter clerk and gateman
- One part/ counterfoil will be left with the ticket counter clerk, visitors will get two parts. Gateman will receive one part from the visitors at the point of entering the PA compound, picnic spot, shooting site, parking
- Clerk shall prepare a scroll in duplicate on daily basis and submit the used receipt books for verification and certification by AAO (Accounts cum Admin Officer).
- AAO shall deposit the money to the MS on every other day and get duplicate scroll signed by the MS
- AAO shall give entry in the Cash Book maintained at CMO

Amount (Tk.) of visitors' entry fee collection and revenue shared to the CMOs.

Project targets: CREL plans to work with Forest Department to expand revenue sharing mechanism in other protected areas while policy works will continue to expedite the process of revenue sharing at source. A CMO will be counted once Government has formalized a system for collecting visitor or other use fees along with a system for sharing that revenue with the CMO, or has taken steps to improve the process of transferring funds to the CMO, or has formalized a system for locally retention of funds by the CMO.

CREL aims to promote this with 15 CMOs and sets out year targets as below:

TARGETS	Y1	Y2	Y3	Y4	Y5	LOP
