Preliminary Observations on the Legal Framework Supporting Co-Management in Bangladesh

Lisa Goldman
Environmental Law Institute
TOR of Mission

- Review legal & policy documents re: natural resource management
- Interview agency and NGO representatives about co-management
- Identify sources of authority for co-management in the existing legal framework
- Identify gaps and additions that would strengthen the legal framework in support of co-management
- Propose legal and policy recommendations for development of a protected area co-management strategy
Interviews

• Forest Department
• Department of Environment
• Department of Fisheries
• MACH
• World Fish Center
• IUCN
• Arannayk Foundation
• Bangladesh Center for Advanced Studies
• East-West Center
• Bangladesh Environmental Lawyers Association
Overview: Policy Framework

- Nishorgo Vision 2010
- Inland Capture Fisheries Strategy (2005)
- Poverty Reduction Strategy Paper (revised 2nd draft 2008)
- Anything else?
Overview: Legal Framework

1927 Forest Act
- (proposed) Village Forestry rules
- draft Protected Area Revenue guidelines

1974 Wildlife Preservation Act
- draft Amended Wildlife Preservation Act (2008)

1950 Fish Act
- draft Fish Sanctuary Act
- Proposed revision to 2005 MoL Leasing Policy

1995 Environment Conservation Act
- 1997 Environment Conservation Rules
- draft Ecologically Critical Area Rules (2008)

2006 Gazette Order establishing CMCs

Multilateral Environmental Agreements
Preliminary Findings

- Although the laws do not formally provide for co-management, they do support participatory resource management concepts.
- Government and NGO staff are supportive of co-management concept.
- Agencies are using rules, administrative orders, policies, and strategies to develop a co-management strategy.
- Certain legal changes are desirable in the long-term to formalize co-management.
- Want to maintain flexibility in the legal framework—focus on authority, not details.
- A developed legal framework is only the first step; on-the-ground implementation is also important.
Key Legal Issues

- Defining protected areas
- Jurisdictional issues
- Using legislation to enable the approaches already being used
- Coordination and communication between Ministries, Departments
- Whether and how to integrate zoning into the legal framework
Key Issues: Fisheries

- 1950 Fish Act, Section 3, supports use of sanctuaries
- How to institutionalize long-term lease system (proposed revisions to 2005 MoL lease policy)
- Institutionalizing fish sanctuaries (draft Fish Sanctuary Law)
- Using Inland Capture Fisheries Strategy to promote co-management
- Registration of community organizations
Key Issues: Forestry

- National Forest Policy- support for co-management
- Can the Government authorize co-management activities in reserve forests under Section 26(2)(a) of the 1927 Forest Act?
- 2004 Social Forestry rules- how to link participatory management of reserve forests to co-management in protected areas?
- (proposed) Village Forestry Rules
Key Issues: ECA

• Respect other agencies’ jurisdiction
• Specify process for identifying and declaring ECAs
• Set framework management guidelines for agencies operating within ECA areas
• Regulate specific activities within ECAs
• Integrate ECA Committees with Local Administrative Committees?
Benefit-Sharing

- Revenue-sharing from entry fees (protected areas), fisheries leases, forestry timber sales
- Provide core funds (e.g. MACH endowments) to offset seasonal ecotourism
- Need rules for how benefits should be shared among participants
- Establish linkages with financial institutions to extend micro-credit to CBOs
- Include alternative livelihood/benefit-sharing provisions in protected area management plans
- Support traditional income-generating activities of indigenous groups
Priorities for Moving Ahead

• Pass Amended Wildlife Preservation Act
  - develop specific Co-Management Rules under the amended Act?
• Use Section 26(2)(a) of the Forest Act to authorize community access to reserve forests (and protected areas)
• Pass Fish Sanctuary Law
• Finalize Ecologically Critical Area rules
• Finalize Revenue Collection & Sharing guidelines
• Finalize rules to implement 10-year fisheries leases for community groups
